

On Thursday 8<sup>th</sup> Feb, 10 year 9 students graduated from the scholars programme at Cardiff University. The students were given a tour of the facilities as well as taking part in study skills and careers talks. All of the students passed with a number of students gaining a 1<sup>st</sup> for their excellent YouTube videos on '*Nanotechnology: The good, the bad and the tiny*'. Special mention must go to; Manon Formaggia, Chloe Tapper and Kenly Avery whose work was described as exemplary and is being used to show other pupils the expected standard for a 1st. During the afternoon the students took part in a mini-graduation ceremony. It was great to see some parents attending taking the opportunity for lots of photos. All of the students were excellently behaved and a credit to the school.
