#### **Engineering Education Scheme Wales Sixth form project:**

The Engineering Education Scheme Wales (EESW) is designed to encourage sixth form students to study engineering courses in further or higher education. The scheme operates through local companies setting research and development briefs related to real industrial problems for teams of several year 12 students.

#### **Rotary Competitions:**

Thousands of young people take part in Rotary competitions every year, which is a great way of enriching More Able students. In most cases, competitions take the form of regional heats followed by a national final. The majority are categorized into junior, intermediate and advanced age groups. There are many competitions available but some of the most popular include:

- **Rotary Young Chef**
- **Rotary Young Musician**
- **Rotary Youth Speaks**
- **Rotary Young Photographer**
- **Rotary Young Writer**
