Early Option Choice Form

As detailed in the Learning Pathway Brochure, there are some compulsory subjects that all students in KS4 will take.

These are **English, Maths, Science, PE, RE, Welsh and Welsh Baccalaureate.**

The purpose of this form is to give you an opportunity to tell us what **three** options subjects you would like to study alongside these.

We have designed option blocks that allow typical combinations of subjects to be chosen and have included some subjects on more than one option block to give greater flexibility to your choice. Please select one subject from each option block.

Please note the following

- We will offer guidance if we think that you may not have chosen the most appropriate options
- Some options may not run if the number of pupils choosing them is too small
- We advise most pupils to consider a balanced curriculum which includes a modern language, a humanities subject and a creative or technological subject, but you do not **have** to do this
- There is a level 1 option in each block. Students will be advised if this is appropriate for them
- We will interview everyone about their choices
