In addition to HegartyMaths.com we may use other platforms such as Edmodo or SumDog with **SOME** of our pupils

hegartymaths

This is our primary platform, used with ALL pupils at KHS.

- Teachers set work for pupils weekly (approximately one per timetabled lesson) . This includes a short video and a quiz made up of 5—15 questions.
- A minimum of one MemRi task is also expected a week (this will show as revision in "My tasks").
- Pupils are expected to log onto Hegarty and complete these tasks.
- Teachers then write feedback comments to pupils to aid progression. Click **HERE** to see how to read and use feedback. (A teacher may reassign a task, if a pupil scores less than 70%, has not watched the video and has taken less than a few minutes on a task.)

    Don't worry too much if you don't manage to complete everything each week

   **Send a comment to your teacher if falling behind or stuck.**

    Hegarty offers a number of additional tools to aid progression:

MemRi

As you may have guessed MemRi is a tool to help your memory work at its best. It uses a quiz made up of questions from previously set tasks that you could do. This is great for keeping knowledge from slipping away and is incredibly helpful come test time.

Memri uses spaced learning to test pupils on topics they have covered previously. Spaced learning encourages recall and embeds knowledge in long term memory, reducing the need for crammed revision.

Fix Up 5

Fix up 5 creates a bank of questions that you got wrong previously. This encourages pupils to "fix" any previous errors ensuring improvement and progression.

- Want to know more about how to logon and use Hegarty? click **HERE**
- Want to make the most out of Hegarty or improve your scores? Click **HERE**
- Or check out our **Hegarty troubleshooting**

edmodo

Edmodo is **not** currently used with all classes

Posts

Teachers and pupils can use the discussion board to share important information, tips, questions or class messages.

Messages

Teachers parents and pupils can use messages to communicate. This includes sending login help, pictures of work or to communicate information or concerns.

Assignments/quizzes

Teachers may assign additional tasks using assignments or quizzes. These tasks may be optional, depending on Edmodo usage.

Start a discussion, share class materials, etc...

- Click **HERE** for help with Edmodo

Sumdog

Sumdog is **ONLY** available to **KS3** classes

Sumdog is a fun way to practise maths skills.

It is **optional** for most classes.

Some classes may be set specific skills to practise and are expected to spend 1 hour a week (these classes may have a reduced number of tasks set on Hegarty)

Pupils will also have the chance to participate in regional and national competitions.
