

What are all of these things about?

The Super Pack

The activities in the Super Pack will help you to get ready for your new subjects in King Henry by helping you to practice your literacy and numeracy skills.

The Year 7 Passport

The Year 7 Passport is just a bit of fun. It will help you to get creative and tell us a little bit about yourself.

Postcard Activity

This is something that we thought you might like to do before the summer holidays. If you would like, your parents or carers can drop them in at Reception at King Henry VIII so that we get to know a little more about you before you arrive.

Key Words for Subjects

We thought that you might like to practice your spelling of some of the key words that you will come across in your Year 7 classes. We have included some key words from all the subjects you will be studying in September.

A Recipe for a Friend

This will help you to think about what you would like someone to be like if they were your friend. How would you want them to behave towards you? This will make you think about what a friend would expect from you also.
